DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see remarks, filed 10/12/07, with respect to claims 1-32 have been fully considered and are persuasive. The rejection under 35 USC 102 of claims 1-32 has been withdrawn.

Specification

2. The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction of the following is required: claim 31 includes the language "a channel assignment message stored on a computer readable medium, the channel assignment message". Examiner is unable to locate support in the specification.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 32 and 33 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Independent claim 31 includes the language "a channel assignment message stored on a computer readable medium, the channel assignment message". Examiner is unable to locate support in the specification.

Allowable Subject Matter

5. Claims 1-30 are allowed.
